## INTRODUCTION

# WHAT IS OPINCUR?

Today, there are virtually no currencies, either fiat or cryptocurrencies, that are backed by real assets and digitally owned by individuals without being subject to strict regulations or blocking risks from governments or private companies around the world. At the same time, there is not a single digital infrastructure that provides convenient interaction between small and medium-sized businesses, with the ability to use the benefits of fiat and cryptocurrency instruments simultaneously.

Based on these market problems data, our team developed a product that solves the issue of providing cryptocurrency with real assets and security of digital currency users.

## OPINCUR

A project that brings together the buying power of community members in order to create a source of income and reduce expenses in everyday life.

# OPINCUR OBJECTIVES

## COMMUNITY

Unite as many people as possible from around the world into a community around Opincur

## SOURCE OF EFFICIENCY

Create an additional and stable source of income for users

## GOODS AND SERVICES

Give an opportunity to purchase goods and services on favorable terms, applying CIO

## ACTIVITIES

Provide CIO token with real assets, popularize the Opincur ecosystem, and increase the use of cryptocurrency in the world

## INTEGRATION INTO BUSINESS

Integration of the token in medium-sized small businesses by expanding the network of cryptocurrency exchanges

## COST-CUTTING

Invited partners will provide users with large discounts and a high percentage of cashback

# WHAT IS CIO?

Our team developed the CIO coin based on the most innovative and secure **blockchain-solana**.

Its throughput is up to 700,000 transactions, which is currently **twice the speed of VISA**.

This token will be used in the future to pay for services and products of the Opincur ecosystem.

## USABILITY

Buying and renting  
real estate

Renting and buying  
cars

Paying for goods and  
services

Exchanging for fiat and  
digital currencies

Paying and getting  
by terminal

Online transfers and  
payments

\*Application areas will be added to as the product grows and scales

# TOKENOMICS

The CIO will have a limited issue of **10 billion tokens** and each time 10% of the remaining issue is distributed, there will be a halving to make the coin exclusive.

EMISSION	CREDITED (% of total issue)	HALVING
10,000,000,000	0%	1 CIO / hour
9,000,000,000	10%	0.5 CIO / hour
8,100,000,000	19%	0.25 CIO / hour

## CIO PROVISION

The income received from advertisers and partners will be distributed at the rate of 60% to other business areas that provide high liquidity. By investing in assets, we not only provide sustainability for the CIO, but also create cash flows that allow an **exponential growth**.

# 60%

### TO CIO PROVISION

#### FOR EXAMPLE:

Buying real estate at the stage of development. Every year the value of real estate is increasing + such objects will bring income from renting,

# CIO AIRDROP

- 1 Download the app
- 2 Confirm activity once every 24 hours
- 3 Take a credit In the form of CIO

Each user has a starting speed:  
1 CIO/hour
